Feast on this...

IN THE NAME OF JESUS!!!

In my opinion, these are the three most significant

words in the English language; yet they are not used nearly as much as they should. Platinum, gold and every other precious stone or commodity retains its value due to their scarcity. We know for a fact that man controls the availability of these items to ensure limited access. There are storage facilities around this globe that stock house millions of carats of gold, platinum and diamonds kept under tighter security than most world leaders. Our inability to freely access these items guarantees their high value for investors and the few who can afford ownership in large quantities.

With that being said the name of oil, platinum, gold or diamonds has yet to be known to drive away any spiritual attack, sickness or disease by its verbal use. Surely the cash equivalent can go a long way in life but none of these commodities has ever holistically and eternally healed marriages, restored the addicted or brought home wayward loved ones. But there still and will always be people losing their life and their souls for the love of these items. The O'Jays said it best in their song For the Love of Money, that "Money can drive some people out of their minds."

After you've lost your mind, your life and nearly your soul, history will record that a sanctified and uncompromised life that utters a faithful prayer ending "**In Jesus Name**" has brought mind, life and soul back to their original state. Here we stand and live under an open Heaven and these priceless words that can be accessed by any coherent soul in any language anywhere on this planet, still hides in plain sight for the few who desire to use it.

Jesus said in **Mark 16:17-20** "*And these signs will accompany those who believe: In my name they will drive out demons; they will speak in new tongues; they will pick up snakes with their hands; and when they drink deadly poison, it will not hurt them at all; they will place their hands on sick people, and they will get well.*"

After the Lord Jesus had spoken to them, He was taken up into heaven and he sat at the right hand of God. Then the disciples went out and preached everywhere, and the Lord worked with them and confirmed his word by the signs

that accompanied it."

When you receive a new credit or debit card in the mail you must first call a number or use it in an ATM machine to activate its intended use. The card's purpose says it represents a surety (collateral, guarantee) for the purchase of an item. In the scripture above, Jesus validated the use of His name for us (no further formality needed) as surety that we can accomplish anything He did as long as it was asked or commanded in His name.

So regardless of the fact that you may decide to carry a certain amount of drama and intensity where ever you go, the name of Jesus will neutralize the atmosphere and bring about ease. If you have never been mentored on integrity and keeping your word, the name of Jesus convicts and strikes a chord. When your spirit is restless and you can't keep still and inner peace seems unattainable, the name of Jesus will arrest you and pour oil upon your troubled waters; just imagine what it would have been like to look directly into His eyes. We will one day.

When lies and scandal become second nature to your lips, the name of Jesus will renew and restore your soul. In these times many are plagued with the spirit of self mutilation, suicide and the spirit of murder; the name of Jesus is the unconditional bosom that sustains life and restores hope.

Some may pray "**In Jesus' name**", some may pray "**In the name of Jesus**" and others may simply say "**In Jesus name.**" Regardless of the grammatical context the enemy trembles just the same. When we swipe a card with the Visa logo the computer has no regard for your nationality, skin color, ethnicity, gender, age, language, academic achievement, socio-economic status, physical, mental or cognitive state; it only cares that the money is there.

When the enemy hears the name of Jesus, the physical or mental state you occupy is erroneous; he only concerns himself with the authority and the toxicity that the name of Jesus and the Blood of the lamb have upon his crumbling kingdom.

My prayer for you in these times that no man can predict or assure us of, is

that you will receive surety in knowing that **YOU** have the power to evoke reaction in the two realms known to man. I decree and believe with you, that the next time you speak your intention according to God's word for your life and the lives you touch; that it will come to pass, **IN THE NAME OF JESUS!**
